## CRCS MEMBERSHIP SAFETY OATH

I promise that I am a current AMA member, have taken and passed The Recreational UAS Safety Test (TRUST), and have FAA Registration. I will uphold and abide by the AMA Safety Code, as well as the rules and bylaws of this club. If I have any violation called to my attention, I will accept it with good grace and renew my dedication to the AMA Safety Code and all the rules. I promise to fly only model aircraft and radio systems with no known safety problems, and only aircraft on which periodic maintenance has been performed by competent personnel. I promise to limit my flying style to my ability to keep my model aircraft under safe control, and to practice maneuvers beyond my present skill only at a safe altitude and with the help of a competent instructor.
